

10/19/2016

To whom it may concern:

I am happy to write this Letter of Recommendation for Felderman Design-Build. Felderman was the general contractor for the Parkview Boys & Girls Club, transforming our previous location, by tearing down 3 homes & the old 100-year facility, and building a new 21,000 square foot facility as well as revamping our 10-year old 6,000 square foot Teen Center.

Felderman's was great to work from beginning to end. They really listened to what our needs and wants were, and brought our vision to reality. They gave us a Project Manager that put our organization first when making decisions while the project was in process, and kept us updated daily. The few hiccups encountered throughout the 10-month project, they went above and beyond to take care of for us. Most importantly, they stayed on-schedule and on-budget!

We highly recommend Felderman Design-Build to any organization. They are well-qualified to take on any project, and far-exceeded our expectations on the outcome. They understand the importance of listening to their client's needs.

We would not hesitate to hire Felderman again for a construction project. If you wish to discuss this further, feel free to contact the Club at: (260) 359-1750.

Sincerely,

Mandy Reber  
Executive Director
