

October 26, 2016

To whom it may concern,

It is a great honor to write this Letter of Recommendation on behalf of Felderman Design-Build. Felderman has worked seamlessly with Summit Brands and our related companies maintaining and renovating our operating facilities and investment properties. For more than a decade now we have engaged Felderman dozens of times to complete projects ranging from routine maintenance issues to major renovations.

The Felderman team of professionals has never failed to put our needs first. Whether we are in the design phase of a new warehouse facility or optimizing the layout of office space at our corporate headquarters, Felderman has been there to listen to our ideas, add their expertise, and exceed our expectations. They have stayed within our time frame and on budget consistently.

We look forward to continuing our successful relationship with Felderman Design-Build and do confidently recommended them to others seeking a general contractor.

Sincerely,

John Didier / CFO
