Felderman Design-Build
Russell C. Felderman
5644 Coventry Lane
Fort Wayne IN 46804

Dear Russ;

Back in 1981 (30 years ago) we contracted with your company Felderman to design and build a 30,000 sq. ft. building for Mullinix Packages, Inc. Our business was just beginning to take off. With the increase of new business over the years, it was necessary for us to grow our production capabilities along with the need for additional space.

Since 1981, we have constructed 24 projects using Felderman Design-Build from small mezzanines to a 200,000 sq. ft. warehouse expansion for a total of 458,000 sq. ft.

This continued use of your company is a testimonial to the great relationship we have developed with you. You have met our expectations not only in competitive prices but also in the design, construction scheduling, speed and efficiency of the projects.

As you are aware, we are planning an additional 200,000 sq. ft. warehouse addition just to the south of the last large expansion you all completed. This we anticipate to be a project for the year 2012.

We look forward to a continued relationship with Felderman Design-Build and the team of subcontractors you have assembled.

Sincerely

John Schirack
Facilities Engineering Manager
Mullinix Packages, Inc.
