Felderman Design-Build
Russell Felderman
5644 Coventry Lane
Fort Wayne IN 46804

My relationship with Felderman Design-Build and Russ personally spans over 25 years. We have built in excess of 40 buildings together ranging from office buildings to manufacturing facilities, to shopping centers, warehouses and beyond.

As the oldest design-build contractor in the area, the concept has worked wonderfully by designing the building I want, for the price I need, in the time frame required. Their design professionals along with their experienced supervisors and dedicated field crew form a winning "can-do" team.

If there was a better contractor in the Fort Wayne area I would have found them by now. I recommend highly.

Sincerely,

Donald B. Steininger
