

DERIC MARTIN

DIRECTOR OF FIELD OPERATIONS

Deric became a superintendent at Felderman Design-Build in 2016. With 18 years of construction experience, he began his career as a carpenter right after high school, even working part-time during his junior and senior years. Over the past nine years at Felderman Design-Build, he has successfully completed several ground-up projects, including pre-engineered metal buildings, wood framing, various white box buildings, and numerous interior remodels and renovations.

His primary responsibilities will encompass, but are not limited to, scheduling field personnel. He will collaborate closely with project managers and superintendents to ensure that projects remain on schedule and within budget. Additionally, he will oversee safety measures and equipment monitoring.

In his leisure time, Deric enjoys watching his son participate in baseball, football, and cattle showing. He also takes pleasure in raising beef cattle, as well as hunting, fishing, hiking, and golfing.
